One of the most difficult aspects of becoming a teacher is learning how to motivate your students. Students who are not motivated will not learn effectively. They won't retain information, they won't participate and some of them may even become disruptive. A student may be unmotivated for a variety of reasons: They may feel that they have no interest in the subject, find the teacher's methods un-engaging or be distracted by external forces. It may even come to light that a student who appeared unmotivated actually has difficulty learning and is in need of special attention.

While motivating students can be a difficult task, the rewards are more than worth it. Motivated students are more excited to learn and participate. Simply put: Teaching a class full of motivated students is enjoyable for teachers and students alike. Some students are self-motivated, with a natural love of learning. But even with the students who do not have this natural drive, a great teacher can make learning fun and inspire them to reach their full potential.

On 27<sup>th</sup> January 2017 from our college 35 students and 6 faculties have participated in Motivational Programme .

Gender equality is a fundamental human right. Yet despite progress, women and girls around the world do not fully experience equal rights and their potential as economic, social and sustainable development change-agents remains untapped. Women are underrepresented in power and decision-making roles. They receive unequal pay for equal work and they continue to be targets of physical and sexual abuse. Additionally, women-owned enterprises are economically disadvantaged and lack equal opportunity to compete for business opportunities. Women also face legal and other barriers that affect their opportunities at work and as entrepreneurs.

Empowering women and girls helps expand economic growth, promote social development and establish more stable and just societies. Women's economic empowerment benefits both women and children. It is pivotal to the health and social development of families, communities and nations. Further, the UN's Sustainable Development Goals (SDGs) underscore women's empowerment as an important development objective, in and of itself, and highlight the relevance of gender equality to addressing a wide range of global challenges.

Gender-based violence (GBV) or violence against women and girls (VAWG), is a global pandemic that affects 1 in 3 women in their lifetime.

The numbers are staggering:

35% of women worldwide have experienced either physical and/or sexual intimate partner violence or non-partner sexual violence. Globally, 7% of women have been sexually assaulted by someone other than a partner. Globally, as many as 38% of murders of women are committed by an intimate partner. 200 million women have experienced female genital mutilation/cutting.

This issue is not only devastating for survivors of violence and their families, but also entails significant social and economic costs. In some countries, violence against women is estimated to cost countries up to 3.7% of their GDP – more than double what most governments spend on education. Failure to address this issue also entails a significant cost for the future. Numerous studies have shown that children growing up with violence are more likely to become survivors themselves or perpetrators of violence in the future. One characteristic of gender-based violence is that it knows no social or economic boundaries and affects women and girls of all socio-economic backgrounds: this issue needs to be addressed in both developing and developed countries.

Decreasing violence against women and girls requires a community-based, multi-pronged approach, and sustained engagement with multiple stakeholders. The most effective initiatives address underlying risk factors for violence, including social norms regarding gender roles and the acceptability of violence.

Addressing the complex development challenge of gender-based violence requires significant learning and knowledge sharing through partnerships and long-term programs. The World Bank is committed to working with countries and partners to prevent and address GBV in its projects.

Eco-friendly Ganesh idols are those that are made of clay, natural fibres, paper and other biodegradable materials. These idols, when immersed in water degrade faster and do not harm the environment as much as the ones made of POP. It is purely made up of natural products. Seed Ganesh idols are infused with seeds which turn into plants after immersion.

On 09/09/2017, from our college 53 students and 5 faculties have participated in the Echo-Friendly Ganesh Programme held at our college campus and knew the main benefit behind using Natural Ganesh Idols instead of POP Ganesh Idols.

## PROGRAM REPORT

Program Name : WORLDS AIDS DAY

Date : 01/12/2017

Venue : College Seminar Hall

Agency Involved : SCET NSS UNIT

Number of Participants : 60 Members

Thousands of people are infected and children are being orphaned because of HIV/AIDS. Not everyone knows the impact AIDS has in every community and every business or organization. According to STATS SA, an estimated 7 million South Africans are HIV positive. Almost all of us are affected by HIV and AIDS. There is really NO cure for HIV/Aids. The best we can do to prevent this disease from spreading and taking more lives, is to educate and create awareness. Knowledge is power.

According to the [etu.org.za](http://etu.org.za) website, in 1990 the life expectancy of people living with HIV/AIDS was 60 years. This has decreased tremendously over the past few years, and

now most infected people won't even live to see 60. Statistics show mainly women between ages 18 and 40 and men between ages 30 and 50, are the ones who are mostly infected with this disease. These are our working age groups as well as our childbearing women who sustain the population. It is safe to say that this epidemic will badly affect our society as a whole today and in future.

After the program, students took part in an interaction & cleared their misconception eg -'mosquito bite cannot spread HIV', 'close kiss cannot spread HIV', 'sharing cloths cannot spread HIV' etc.. On 01/12/2017, from our college 55 students and 5 Faculties have participated in the Programme at college auditorium and got awarded of HIV/AIDS and promised that they will aware the public and their friends regarding this.

## PROGRAM REPORT

Program Name : SAVE GIRL CHILD

Date : 24/01/2018

Venue : Edulabad village

Involved : SCET NSS UNIT

Number of Participants : 56 Members

The struggle of a girl child begins even before the day she is conceived. In India, female foeticide is a worrying practice, as cheap abortion technology allows households to exercise their preference for sons over daughters. She is 'lucky' if she is allowed to be born. Even after birth, the girl child faces discrimination and oppression. She is not provided with proper nutrition compared to her male siblings, her education is not given much importance and in many cases, parents prefer that their sons continue schooling, and want their daughters to stay at home and do household work. After marriage, the trials faced by women do not end as she continues to face oppression and even violence in her marital home.

1972. It was dubbed "Conference on Human Environment" and the objective was to come up with ways of addressing the challenges of conserving and promoting the human environment. On December 15, 1972, the General Assembly adopted a resolution designating June 5 as the World Environment Day. Government and organizations working with the UN were encouraged to organize activities that reaffirm their commitment to preserving and enhancing the environment.

The first WED was observed on June 5, 1974. Since then, the UNEP has helped raise awareness around growing environmental concerns such as depletion of ozone layer, pollution, and global warming. The aim of the WED is to give a face to environmental issues and also make people active agents of fair and sustainable development.

On 5-6-2018 in our college campus 54 students and 6 faculties have participated in the world environment day and have given the importance of environment in each individual.

The program was launched by Telangana Chief Minister Chandrashekar Rao on 3 July 2015. It is one of the Telangana Flagship programmes to rejuvenate degraded forests, protecting these forests from threats such as smuggling, encroachment, fire and grazing. Program Name : ECO-FRIENDLY GANESH  
Date : 11/09/2018  
Venue : Near Ghatkesar Municipal Office  
Agency Involved : SCET NSS UNIT

These idols, when immersed in water degrade faster and do not harm the environment as much as the ones made of POP. It is purely made up of natural products. Seed Ganesh idols are infused with seeds which turn into plants after immersion.

On 11/09/2018, from our college 55 students and 6 faculties have participated in the Eco-friendly Ganesh Programme held at our college campus and knew that it is best to use eco friendly Ganesh Idols instead of using harmful idols made of POP and chemicals.

## PROGRAM REPORT

Program Name : NATIONAL SERVICE SCHEME DAY

Date : 24/09/2019

Venue : college campus

Agency Involved : SCET NSS UNIT

Number of participants : 58 Members

Every year on September 24, India celebrates National Service Scheme Day (NSS Day). During Mahatma Gandhi's Centenary Year (1969), on September 24, the National Service Scheme (NSS) was inaugurated, including 40,000 student volunteers from 37 institutions.

NSS helps the student to grow individually and also as a group. It makes the students confident, develop leadership skills, and gain knowledge about different people from different walks of life. Students also learn other skills that help them lead a better life in various situations. The main objective of NSS is to understand the community in which they work, understand themselves in relation to their community, identify the needs and problems of the community and involve them in problem-solving.

## PROGRAM REPORT

Program Name : ECO FRIENDLY GANESHA  
Date : 01/10/2019  
Venue : Near Ghatkesar Municipal Office  
Agency Involved : SCET NSS UNIT  
Number of participants : 59 Members

Ganesh Chaturthi is a festival which is celebrated all over India to worship Lord Ganesh, is becoming more eco-friendly nowadays. Generally, Ganesh murtis are made of Plaster of Paris, Which are immersed in water after Ganesh Chaturthi, which harms the water bodies. Many of the people are practicing the eco-friendly Idol during Ganesh Chaturthi.

Eco-friendly Ganesh Murtis are made of organic soil/mud, natural colors. Why should you use eco-friendly Ganesh idols? Being responsible citizens we can accomplish something for our environment Plaster of Paris is non-biodegradable made of poisons and unsafe colors and it severely pollutes the sea-going life and water bodies. To spare and secure our nature, we should hold hands and do our bit, and go for eco-friendly items.

Date : 14/09/2021  
Venue : College seminar hall  
Agency Involved : College NSS Unit

When you wear a mask, you protect others as well as yourself. Masks work best when everyone wears . A mask is not a substitute for social distancing. Masks should still be worn in addition to staying at least 6 feet apart, especially when people are around. The following must be followed to be safe.

- Wash your hands frequently (for at least 20 seconds) with soap and water or a hand sanitizer that contains at least 60% alcohol.
- Avoid touching your face (particularly your eyes, nose, and mouth).
- Stay home as much as possible, even if you don't feel sick.
- Avoid crowds and gatherings of 10 or more people.
- Avoid all non-essential shopping and travel.
- Keep 6 feet of distance between yourself and others when out.
- Sleep for more time, which helps and supports your immune system.

## PROGRAM REPORT

Program Name: COVID-19 VACCINATION

Date: 09/12/2021

Venue: College Auditorium

Agency Involved: SCET NSS UNIT & PHC NARAPALLY

Number of participants: 134 Members

Covid-19 vaccines have been tested by multiple drug administration authorities in the world. They are proven to be effective in reducing your probability of contracting COVID-19. Once you are vaccinated, your body is much better prepared to shield off more viruses by making your immune system stronger.

A COVID Vaccine Certificate (CVC) issued by the government offers an assurance to the beneficiary on the vaccination, type of vaccine used, and the provisional certificate also provides the next vaccination due. It also is an evidence for the citizen to prove to any entities which may require proof of vaccination specially in case of travel. Vaccination not only protects individuals from disease, but also reduces their risk of spreading the virus. Therefore, there could be a requirement in future to produce certificate for certain kind of social interactions and international travel.
